

STOCK LICK

PROMOTES MINERAL UPTAKE, RUMEN HEALTH & BIOTA
FULVIC FOR IMPROVED FEED UTILISATION

Ideal for improving livestock condition, weight gains and feed utilisation.

Balanced minerals including calcium with fulvic, kelp, molasses and amino acids.

Fulvic is a powerful natural electrolyte; minerals from feed are more available and readily absorbable.

- Balanced combination of minerals including calcium, phosphorous, magnesium, potassium, amino acids and trace elements.
- Fulvic is nature's most powerful electrolyte enhancing the availability of nutrients. It acts to facilitate mineral uptake and cellular metabolism in the rumen.
- Promote beneficial biological functions in the rumen.
- Amino acids have roles in protein synthesis, hormone release, immune response, feed conversion, nitrogen balance in tissues and energy production.
- Trace elements have roles in lactation, reproduction, metabolism, thyroid function (iodine), bone/tissue development and maintaining hair, skin and hooves.
- Non-toxic formulation, uses a natural binding agent and no urea.

Clean Skins Available

- ✓ Convenient, minimal packaging
- ✓ Economical pricing
- ✓ Pallet stacks for easy transfers
- ✓ 0.25T, 0.5T & 1T stacks

TYPICAL ANALYSIS (w/w)

Calcium	21 g/kg	Iron	850 mg/kg
Sodium	230 g/kg	Zinc	190 mg/kg
Phosphorous	8.3 g/kg	Copper	39 mg/kg
Magnesium	7.4 g/kg	Boron	4 mg/kg
Potassium	5.4 g/kg	Selenium	2.2 mg/kg
Total Amino Acids	8320 mg/kg	Iodine	1.5 mg/kg
Sulphur	1600 mg/kg	Cobalt	0.99 mg/kg
Manganese	1200 mg/kg		

RECOMMENDATIONS

Timing

	Ideal for use all year round, animals will generally self regulate.
Sheep / Goats / Alpacas	Provide 1 block for each 100 head, replace as necessary. (One block will normally last about one week). Usual intake: 14-30 g/head/day.
Cattle	Provide 1 block for each 40 head, replace as necessary. (One block will normally last about one week). Usual intake: 35-70 g/head/day.
Horses	Provide blocks, replacing as required.

Rates and timings may change depending on crop and season.
Always consult a LawrieCo consultant or distributor for specific recommendations.

This product is ideal for use to supplement diets where mineral levels may be low.
Store in a cool, dry location. Ideally below 30C.
Does not contain restricted animal material.
